Evansville, IN 47708

Phone: 812-433-4000 or 800-342-5386

**** 8 CEH (Elective) Indiana****

**** 8 PDH (Elective) Kentucky****

Seminar Description: This course will review a number of different items including, railroad safety, terms and jargons associated with railroads, railroad classes and resources and data available for the surveyor. A review of OSHA and e-RAILSAFE requirements as well as insurance needed to work with the railroads. The course will cover the procedures for the access to railroad property and the safety training for working inside railroad property. The course will review types of railroad surveying, including real estate acquisition and engineering surveys. The course will review basic railroad surveying, including research, track vs. corridor, stationing vs. milepost, gage, superelevation and track geometry and mathematics. Les and Gordon will discuss the GIS available and books, organizations and web searches. There will be an answer and question session at the end of the course.
